

## PPA0294 | Diamond core drill bit for glass and hard materials - XLPR+FTDhex (Hanging box)

Diamond core drill bit designed for dry drilling of the hardest tiles, in particular ceramic stoneware with a hardness of 1 to 5. Its segmented diamond head allows for a clean, fast and controlled cut, without cracks or chips, for a perfect finish. Ideal for installing visible accessories in bathroom and kitchen fittings.

### Application

Cinder  
Block

Stone

Brick

Concrete
