

## PPA0334 | Special drill bit for fragile materials - glass & tiles - XPLR+CVcyl (Plastic sleeve)

This drill bit with a very sharp tip is designed for precise drilling of hard, abrasive or fragile materials such as non-tempered glass, ceramics, plastic, composites, solid or hollow brick. Its sharp, pointed tip allows for crack- and chip-free drilling, with perfect centring right from the start. It guarantees a clean finish, which is essential for bathroom and kitchen fittings.
