

PPA2076 | Philips XLPR+ screwdriver bit - L25mm - Anti-slip EAD ()

Single cross-shaped screwdriver bit (4 conical prongs) designed for tightening and loosening Phillips-type cross-head screws. Used with manual screwdrivers, screwdrivers, or low-torque drills. Screw head used in electronics and furniture assembly. AD (High Adhesion) technology: AD bits offer optimal adhesion to the screw head, reducing slippage in complex technical applications.
