

## PPA0053 | Broca para hormigón de 6 filos XPLR+6Tmax -SDSmax ( )

Broca de 6 filos con enchufe SDS Max diseñada para taladrados de gran diámetro en hormigón armado, hormigón y todos los materiales de construcción que requieren una gran potencia. Con un diseño monobloque 100 % carburo de 6 filos y su hélice de alto rendimiento, garantiza un taladrado rápido, fluido y sin atascos.

### Aplicaciones

Piedra

Ladrillo

 Hormigón  
armado

Hormigón

## **PPA0053 | Broca para hormigón de 6 filos XPLR+6Tmax -SDSmax (l)**

Broca de 6 filos con enchufe SDS Max diseñada para taladrados de gran diámetro en hormigón armado, hormigón y todos los materiales de construcción que requieren una gran potencia. Con un diseño monobloque 100 % carburo de 6 filos y su hélice de alto rendimiento, garantiza un taladrado rápido y sin atascos.
